# TOKENS

Trim out each of the Tokens below. These may be used in conjunction with the maps found in the Map Package.

## STEP 1

## STARTING YOUR TURN:

Each Hero Action has a speed. Each Turn, you have:

2 Slow  
Actions

OR

1 Slow Action &  
2 Fast Actions

OR

4 Fast  
Actions

You may take any number of Free Actions.

## STEP 3

## RESOLVING YOUR ACTIONS:

**CAP Check:** If your Action includes 1 or more Foes as a Target, you must roll 1d20 and check the Roll Result against your "C", "A", and "P" Values.

**C** If your Roll Result is  $\leq$  your "C" Value, your Action is a **Critical Hit\*** and proceed to **Step 4**. If your Roll Result is  $>$  your "C" Value, proceed to "A".

**AUTO-CRIT:** An Action with this Special Property do not require a **CAP Check** and is treated as though you rolled a Critical Hit.

## STEP 2

## SELECTING YOUR TARGETS:

**Action Targeting:** Actions can Target Combatants (yourself, other Heroes, or Foes), the Battlefield (Squares or the entire map), or a combination of the above. Any Action that includes at least 1 Foe as a Target requires a **CAP Check**. Actions that do not include any Foes do not require **CAP Checks**.

**Action Range:** Actions can only include Target(s) that are within the specified **Action Range**.

**[1] Cover:** You cannot Target Combatant(s) [and/or Square(s)] if there is 1 or more **Square(s) of Cover** (*Local Field Effect*) between you and your Target.

**A** If your Roll Result is  $\leq$  your "A" Value, your Action Hits your Target and proceed to "P". If your Roll Result is  $>$  your "A" Value, your Action Misses.

**AUTO-HIT:** An Action with this Special Property do not require a **CAP Check** and is treated as though you hit your Target. However, **AUTO-HIT** Actions never bypass Barrier Values.

**P** If your Roll Result is  $\leq$  your "P" Value, your Action bypasses your Target's Barrier Values. If your Roll Result is  $>$  your "P" Value, the Damage of your Action is reduced. Proceed to **Step 4**.

**PIERCING:** An Action with this Special Property always bypasses Barrier Values when calculating Damage dealt.

## STEP 4

## DEALING DAMAGE:

**Normal Hits:** Roll the associated damage dice for your Action. If you bypassed your Target's Barrier Values, subtract your Roll Result from your Target's HP. If you failed to bypass, reduce your Roll Result by your Target's corresponding Barrier Value before subtracting the remainder from their HP.

**\*Critical Hits:** A Critical Hit automatically hits your Target, bypasses their Barrier Values, and deals the maximum Damage associated with that Action.

## HEALING:

If your Action includes Healing, roll the associated healing dice with your Action. Add the Roll Result to that Hero's Current HP. A Hero's Current HP cannot exceed their maximum HP and you cannot heal a **FALLEN** Target.

## SPECIAL ACTIONS TYPES &amp; THEIR RESOURCES:

**Trigger Actions:** Can be used out of Turn Order if the Trigger Condition is met. You must have enough unused Action Points remaining in your Action Pool to expend on the Trigger Action.

**Trigger Limit:** The total amount of Trigger Actions you can use per Round.

**Sustain Actions:** Actions may have a Sustain Effect. If they do, they can have their Sustain Effect applied at the start of each of your Turns following the initial use of that Action. Initiating the Action will use an amount of your **Action Pool** equal to that Action's Speed, but maintaining the Action's Sustain Effect does not deplete your Action Pool. Any interruption to Sustaining that Effect will require you to expend Action Points to initiate the Effect all over again.

**Sustain Limit:** The total amount of Sustain Effects that you can have active each Round. Multiple copies of the same Effect count separately.

**Amplify Actions:** The power of an Action can be increased with an Amplify Effect. Amplify Effects may exist within an Action or exist independently as Amplify Actions, which can be applied to other Actions. You may decide to apply Amplify Effects after you have made all dice rolls.

**Amplify Limit:** The total amount of Amplify Effects and Amplify Actions you can use per Round.

**Tide-Turner Actions:** Your most powerful Actions. They are activated by expending a Tide-Turner Charge in addition to any other costs.

## STEP 1

### STARTING A FOE'S TURN:

Read the Foe's Default Characteristics.

**TIP:** Players seeking additional challenge may read the Foe's Optional Modifiers as well.

## STEP 2

### USING THEIR ACTION CHAIN:

Roll 1d6 to determine the Foe's Action Chain.

**[2] Action Chain:** Begin with the centre Hex. Then, progress through adjacent Hexes in the direction of the Roll Result. Perform the Action listed in each Hex in order.

**Move Hex:** The Foe travels a number of Unoccupied Squares up to the value listed in the Hex. Each Diagonal Square transversed counts as 1 Movement.

**Basic Attack Hex:** The Foe Targets a Hero with their Basic Attack. If the Foe has a Melee and Ranged option, it prioritises its preferred Basic Attack.

**Special Ability Hex:** The Foe's strongest powers.

## STEP 3

### SELECTING A FOE'S TARGETS:

**Action Targeting:** Foes move toward and Target Combatants using a combination of their Default Characteristics, Optional Modifiers, Combat Flairs, and the Effects of their Actions. If Targeting is unspecified, the Narrator/Storyteller has the Foe act in its best interest.

**No Valid Target:** If a Hex has no valid Target, the Foe skips that Hex and continues with the next Action in their Action Chain.

**Action Range:** See Quick Guide: Hero Turns.

**[1] Cover:** See Quick Guide: Hero Turns.

## STEP 4

### RESOLVING FOE'S ACTIONS:

Foes do not roll **CAP Checks**. Instead, Heroes avoid Foe Actions using **Defence Checks**. When Targeted by a Foe's Action, the Hero makes a Defence Check by rolling 1d20 and compares the Roll Result to the corresponding Defence Value matching the Icon listed directly after the name of the Foe's Action. If the Roll Result > Hero's Defence Value, the Hero is Hit and proceed to **Step 5**.

## STEP 5

### DEALING DAMAGE:

The Narrator/Storyteller rolls the Damage Dice listed in the Foe's Action. Reduce the Roll Result by the corresponding Hero's Barrier Value, then subtract the remainder from the Hero's Current HP. If the Hero's Current HP becomes 0, that Hero becomes **FALLEN**.

### ADDITIONAL EFFECTS:

Foe Actions may have additional Effects. If a Hero is hit by an Action that includes an additional Effect, that Hero will need to roll additional Defence Checks to determine whether they suffer from those Effects. Which Defence Value the Hero must make a Check against is listed directly after the additional Effect.

### SPECIAL PROPERTIES:

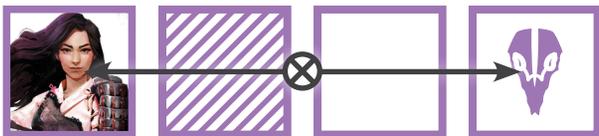

**AUTO-CRIT:** Foe Actions with this Special Property are treated as a **Critical Hit\*** (see Quick Guide: Hero Turns).

**AUTO-HIT:** Foe Actions with this Special Property cannot be avoided.

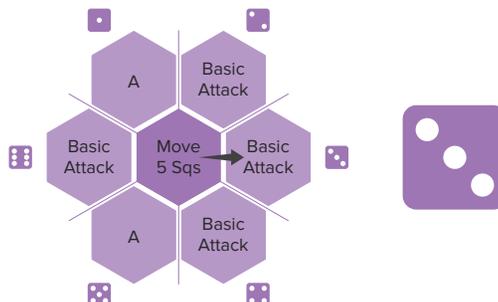

**PIERCING:** Foe Actions with this Special Property bypass Hero Barrier Values.

## REFERENCES:

### [1] COVER

### [2] ACTION CHAIN

### [3] FLANKING

A Hero who are adjacent to two or more Foes that occupy Squares on opposite edges or corners suffer **OFF-GUARD** (see back of Hero Card). The same is true for a Foe positioned between two Heroes. **OFF-GUARD** granted from Flanking is removed when the Combatant is no longer surrounded.

## BEFORE COMBAT

### PROMOTE FOES:

At the start of a combat, the Storyteller may promote one, some, or all Foes to their Veteran counterparts.

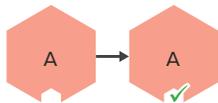

**Note:** Veteran Foes are more powerful than their normal counterparts, and feature improved statistics, an expanded A.I. Hex Grid, and can "learn" new abilities as combat progresses. If your Storyteller is using pe-written *EMBERWIND*™ content and is having difficulty balancing battles, consider using the **Flow** system (located in the Variants section).

## DURING COMBAT

### STEP 1

### UNLOCK HEXES:

At the start of each Round, the Storyteller unlocks 1 Red Action Hex for each type of Veteran Foe present by marking the checkbox.

**Increasing the Rate of Learning:** Additional challenge can be found by increasing the amount of Red Action hexes that are unlocked at the start of each Round.

### STEP 2

### STARTING A FOE'S TURN:

Read the Foe's Default Characteristics.

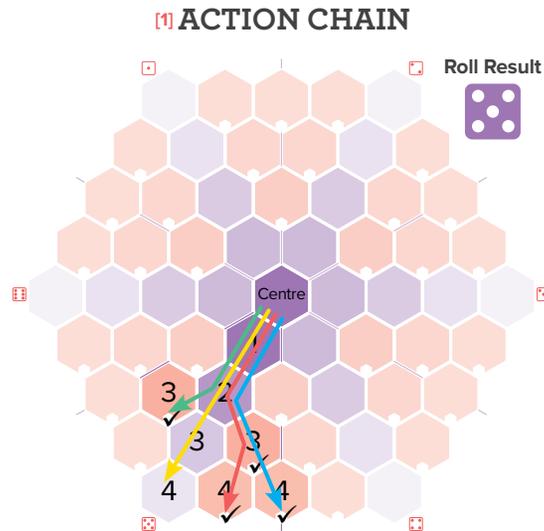

**TIP:** Players seeking additional challenge may read the Foe's Optional Modifiers as well.

### STEP 3

### USING THEIR ACTION CHAIN:

Roll 1d6 to determine the Foe's Action Chain.

**[1] Action Chain:** Begin with the centre Hex. Then progress through adjacent (purple or unlocked red) Hexes in the direction of the Roll Result. Perform the Action listed in each Hex in order.

**Move Hex:** The Foe travels a number of Unoccupied Squares up to the value listed in the Hex. Each Diagonal Square transversed counts as 1 Movement.

**Basic Attack Hex:** The Foe Targets a Hero with their Basic Attack. If the Foe has a Melee and Ranged option, it prioritises its preferred Basic Attack.

**Special Ability Hex:** The Foe's strongest powers.

**Red Action Hex:** Unlockable Action Hexes that create new Action Chains and teach new abilities.

### STEP 4

### SELECTING A FOE'S TARGETS:

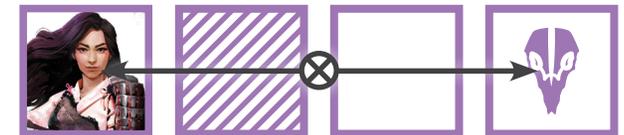

**Action Targeting:** Foes move toward and Target Combatants using a combination of their Default Characteristics, Optional Modifiers, Combat Flairs, and the Effects of their Actions. If Targeting is unspecified, the Storyteller has the Foe act in its best interest.

**No Valid Target:** If a Hex has no valid Target, the Foe skips that Hex and continues with the next Action in their Action Chain.

**Action Range:** Actions can only include Target(s) that are within the specified **Action Range**.

**[2] Cover:** You cannot Target Combatant(s) [and/or Square(s)] if there is 1 or more **Square(s) of Cover** (Local Field Effect) between you and your Target.

### [2] COVER

### STEP 5

### RESOLVING FOE'S ACTIONS:

Foes do not roll **CAP Checks**. Instead, Heroes avoid Foe Actions using **Defence Checks**. When Targeted by a Foe's Action, the Hero makes a Defence Check by rolling 1d20 and compares the Roll Result to the corresponding Defence Value matching the Icon listed directly after the name of the Foe's Action. If the Roll Result > Hero's Defence Value, the Hero is Hit and proceed to **Step 5**.

### CONTINUED ON BACK

## STEP 6

### DEALING DAMAGE:

The Narrator/Storyteller rolls the Damage Dice listed in the Foe's Action. Reduce the Roll Result by the corresponding Hero's Barrier Value, then subtract the remainder from the Hero's Current HP. If the Hero's Current HP becomes 0, that Hero becomes **FALLEN**.

### ADDITIONAL EFFECTS:

Foe Actions may have additional Effects. If a Hero is hit by an Action that includes an additional Effect, that Hero will need to roll additional Defence Checks to determine whether they suffer from those Effects. Which Defence Value the Hero must make a Check against is listed directly after the additional Effect.

### SPECIAL PROPERTIES:

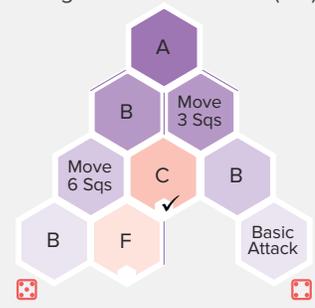

**AUTO-CRIT:** Foe Actions with this Special Property are treated as a **Critical Hit\*** (see Quick Guide: Hero Turns).

**AUTO-HIT:** Foe Actions with this Special Property cannot be avoided.

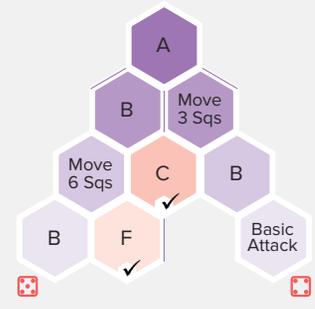

**PIERCING:** Foe Actions with this Special Property bypass Hero Barrier Values.

### EXAMPLE:

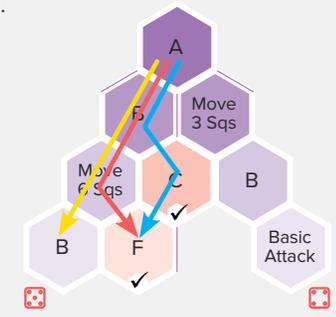

On the first Round, the Storyteller unlocks the Red Action Hex (Special Ability C) between segments "4" and "5" by marking it with a checkbox (✓).

On the second Round, the Storyteller unlocks the Red Action Hex (Special Ability F).

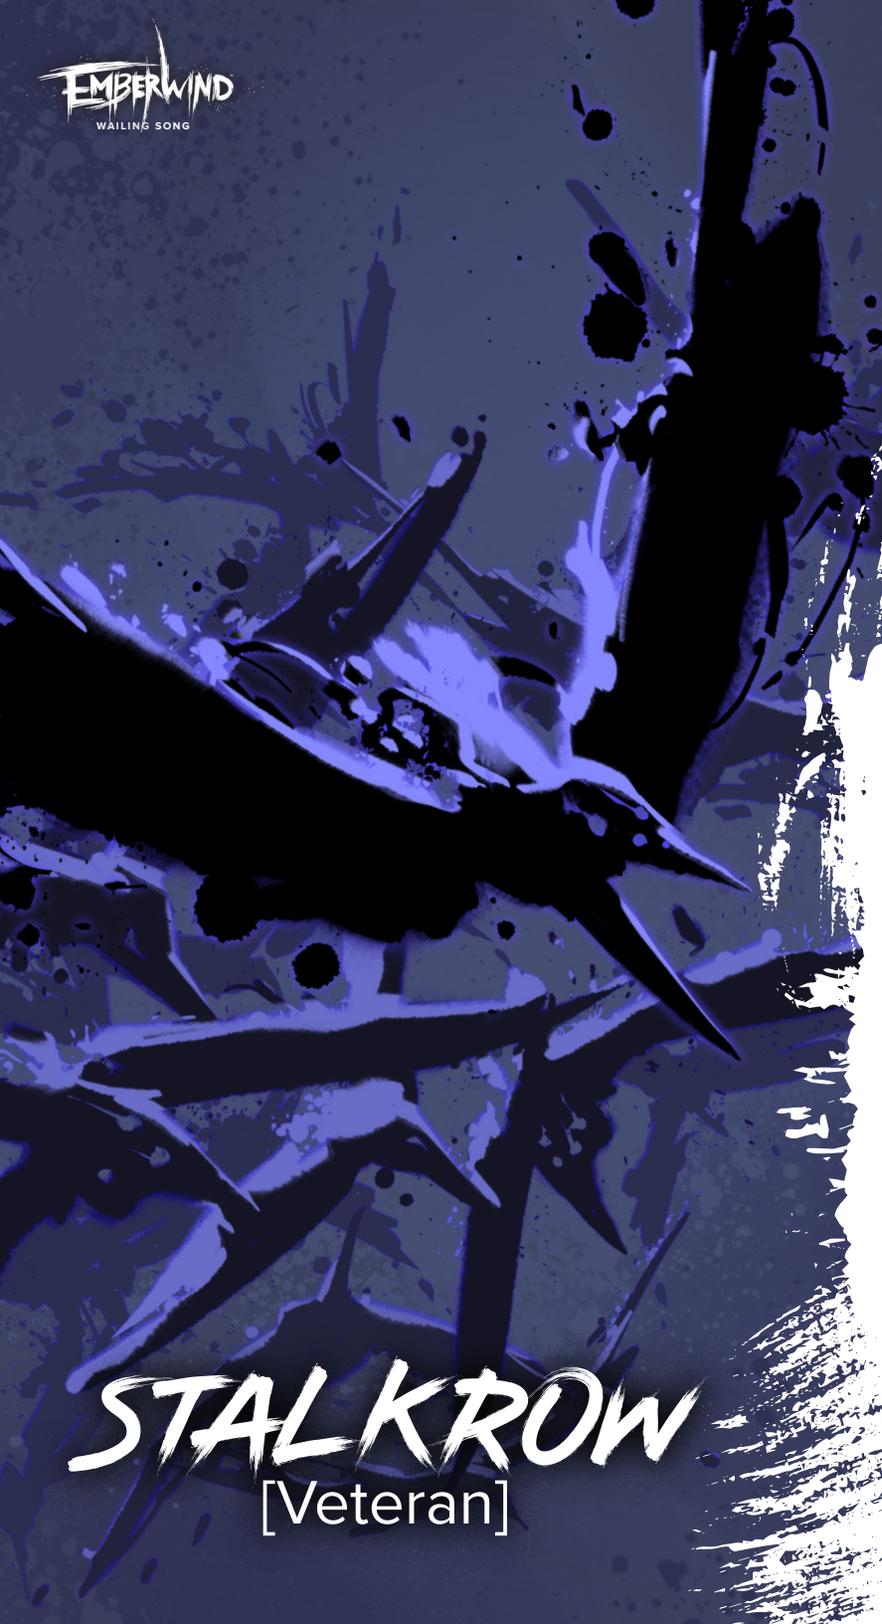

On the Foe's Turn, the Storyteller rolls 1d6 to determine which **direction to create an Action Chain** with. The Storyteller rolls a 5, giving the following Action Chains to select from.

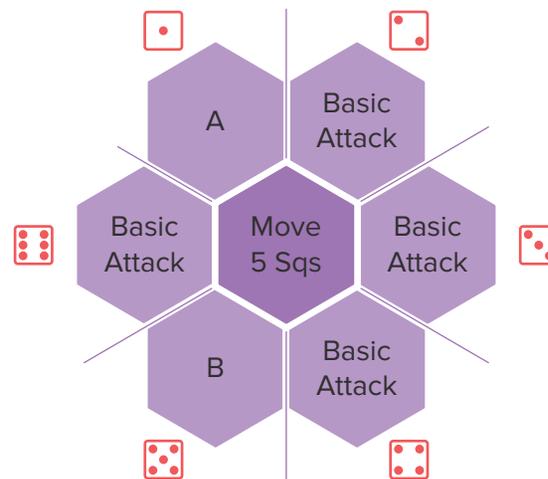

The Storyteller selects the **blue Action Chain**, performing the following Actions in this sequence: **Special Ability A, Special Ability B, Special Ability C, and then Special Ability F.**

<b>1st Action</b>	Special Ability A	Special Ability A	Special Ability A
<b>2nd Action</b>	Special Ability B	Special Ability B	Special Ability B
<b>3rd Action</b>	Move 6 Squares	Move 6 Squares	Special Ability C
<b>4th Action</b>	Special Ability B	Special Ability F	Special Ability F
